## UNIT HEAD FRAME

### MODELS

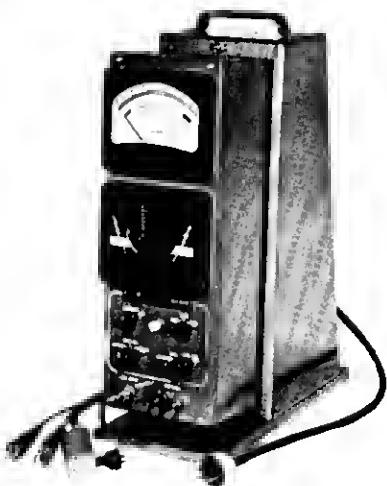

UHF

AND

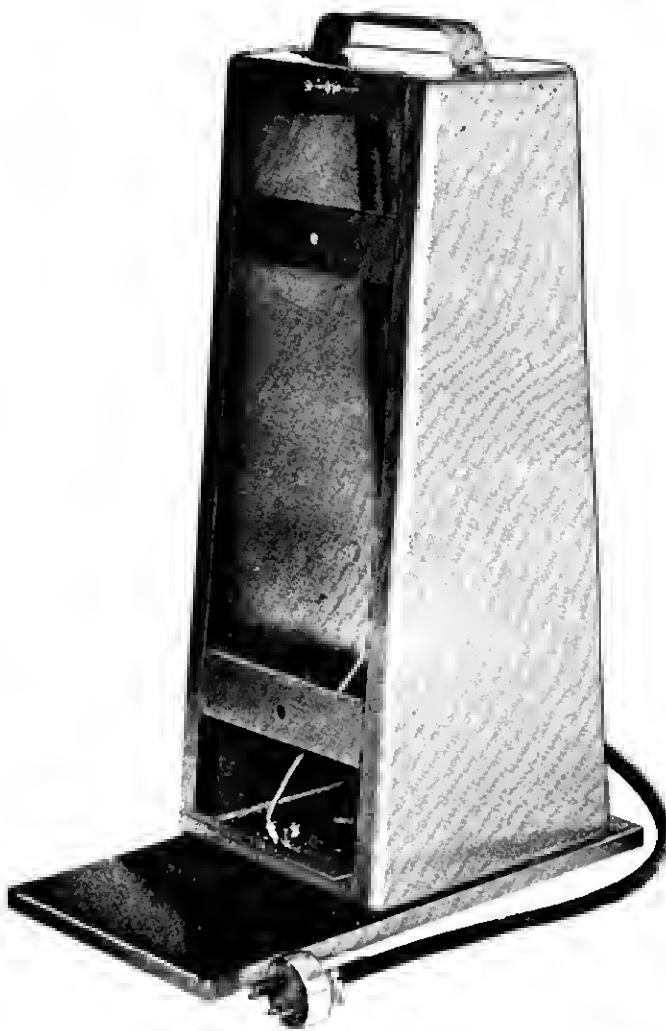

UHF-1

The unit headframe will accept any of the units of the QST700 and SMT900. The following units will fit without modification; 15, 25, 20, 40, 60 and 80 units. The headframe contains a transformer and switch.

It is ideal for mounting the Coil-Condenser Unit, Model 60 for bench testing of coils and condensers.
